

# International Stereotactic Radiosurgical Society

London Course  
15th and 16th May  
Lord's Cricket Ground

**ISRS** COMPREHENSIVE OVERVIEW OF  
INTRACRANIAL AND BODY RADIOSURGERY  
EDUCATIONAL COURSE MAY 15-16, 2018, LONDON, UK

The Wellington Hospital  
part of **HCA** Healthcare UK

# ISRS Radiosurgery

Tuesday May 15th

Hosted by:

Mr H Ian Sabin, Consultant  
Neurosurgeon

Dr J Conibear, Consultant Clinical  
Oncologist

**Intracranial Day – Lord's Cricket Ground, London  
NW8**

---

09:00 – Registration Opens

09:30 – Physics of the radiosurgery platforms  
(Mr Ian Paddick)

10:00 – Radiobiology  
(Professor Bleddyn Jones)

10:30 – Tolerances of organs at risk  
(Alex Dimitriadis and Mr Cormac Gavin)

11:00 – Coffee

11:20 – Imaging techniques for effective planning  
(Dr Levan Makalanda)

11:50- Vestibular schwannomas, pathology, natural  
history, management options including radiosurgery  
(Mr H Ian Sabin)

12:20 – Hearing, mechanism of hearing loss with/without treatment (Mike Wareing) then panel discussion about role of radiation in hearing loss  
(Dr Alex Dimitriadis and Professor John Hopewell)

**13:00 – Lunch**

14:00 – Retreatment of vestibular schwannomas  
(Mr Jeremy Rowe)

14:30 – Treatment of other cranial nerve schwannomas  
(Mr Jeremy Rowe)

15:00 – Pathology, radio sensitivity of histologically different cerebral metastases  
(Dr Ron Beaney)

15:30 – Coffee

16:00 – Radiosurgical options for treatment of cerebral secondaries, UK NICE guidelines, fractionation, staging, platforms  
(Dr Alex Dimitriadis and Professor John Hopewell)

16:30 – Cerebral metastases, concurrent administration of checkpoint and assessment of radiosurgical outcomes, pseudo progression or tumour growth?  
(Dr Chris Herbert)

17:00 – Proton vs Photons – clinical indications, what is the evidence  
(Professor Bleddyn Jones)

17:30 – Close

---

# ISRS Radiosurgery

Wednesday 16th May 2018

Hosted by:

Dr J Conibear, Consultant Clinical  
Oncologist

**Extracranial Day – Lord's Cricket Ground, London  
NW8**

---

09:00 – Registration Opens

09:30 – Future directions for SBRT: aberrant cardiac conduction  
pathway ablation  
(Dr Nick Plowman)

10:00 – Overcoming planning and treatment delivery challenges in  
the utilisation of SBRT in aberrant cardiac conduction pathway  
ablation  
(Dr Christopher Dean)

10:30 – Coffee

11:00 – SBRT and immunotherapy – the science, rationale and  
clinical trials update  
(Dr Kent Yip)

11:45 – SBRT in the management of hepatocellular carcinoma (HCC)  
and metastatic colorectal cancer  
(Professor Maria Hawkins)

12:30 – Lunch

# **ISRS Radiosurgery**

13:30- New technologies to assist SBRT in the management of  
early lung cancers and lung metastases

(Mr Kelvin Lau)

14:15 – SBRT in the management of prostate cancer and  
urological malignancy

(Dr Karen Tipples)

**15:00 – Coffee**

15:30 – SBRT in the Management of  
Oligometastatic Disease

(Mr Yat Tsang)

16:00 – An overview of the UK SARON trial

(Dr David Landau)

16:30 – Oligometastatic Disease Case  
Discussions

(Dr John Conibear)

17:00 – Close

---
