VESTIBULAR SCHWANNOMA 2019
8th Quadrennial Conference on Vestibular Schwannoma and Other CPA Lesions

ADVANCING CARE THROUGH IDEAS AND INNOVATION

MAYO CIVIC CENTER
JUNE 19–21, 2019
PRE-COURSE LAB: TUESDAY, JUNE 18, 2019

VS2019.MAYO.EDU
COURSE HIGHLIGHTS
Since the inaugural conference held in Denmark in 1991, this worldwide multidisciplinary gathering has left its footprints in France, Italy, UK, Spain, USA and China. Mayo Clinic in Rochester, Minnesota, U.S.A., is proud to host the 8th Quadrennial International Conference on Vestibular Schwannoma and Other CPA Tumors. The 2019 conference will provide a great opportunity for otolaryngologists, neurosurgeons, radiation oncologists, neuroradiologists, plastic and reconstructive surgeons and other healthcare professionals to share their clinical experiences, discuss treatment strategy and introduce their advances in related fields. Various sessions and roundtable discussions will focus on the advanced clinical management as well as cutting-edge research accomplishments on vestibular schwannoma and other CPA lesions.

COURSE HIGHLIGHTS
- World experts in microsurgery, radiation and medical therapy
- Focus on advancing multidisciplinary care through novel ideas, research and technological innovation
- Pre-meeting dissection workshop led by world experts in the field

TARGET AUDIENCE
The 2019 conference will provide a great opportunity for otolaryngologists, neurosurgeons, radiation oncologists, neuroradiologists, plastic and reconstructive surgeons and other healthcare professionals to share their clinical experiences, discuss treatment strategy and introduce their advances in related fields.

LEARNING OBJECTIVES
- Describe the rationale for and give examples of the various treatment strategies available for managing patients with vestibular schwannoma
- Construct standardized evidence based protocols for management of patients with vestibular schwannoma that are practical for implementation given the resources in their environment
- Incorporate new surgical techniques to improve outcomes
- Recognize if their current practice model provides comprehensive non-biased evidence based medicine during the counseling of patients with vestibular schwannoma
- Summarize options and identify who may benefit from current facial and hearing rehabilitation strategies

COURSE DIRECTORS
Matthew L. Carlson, M.D.
Colin L. W. Driscoll, M.D.
Michael J. Link, M.D.
David S. Haynes, M.D.
### REGISTRATION AND FEES
